

PUNCHI

Working with Innovative Materials

In a world where resources are becoming increasingly scarce, the HBP Group puts its know-how and experience at the service of the valorisation and industrial shaping of materials of the future, high-performance, bio-sourced and from the circular economy.

Formulation of ceramic powders
Study of material properties

Design of fastening solutions
Prototyping and industrialization

Pressing - Machining
Ceramic Coating

Ceramic colouring with 100% mineral pigments
Development of customised colours

Circular Economy

Ceramics

CMC - OCMC

Innovative materials

High Performance

Composite

Biosourced Materials

Bouverat Pernat
Innovative machining

SECAM
Fixing solutions

Nanoceram
Ceramic technologies
