Working with Innovative Materials

- Formulation of ceramic powders
- Development of specific properties
- Synthesis and characterisation laboratories

- Pressing
- Machining
- Moulding
- Sintering with shrinkage control
- Finishing: Tribofinishing, Polishing, ...

MACHINING GREEN CERAMIC RODS

Increased productivity

Dust recovery and reuse

- Ceramic colouring with 100% Mineral pigments
- Custom colour development
- In-depth colouring of parts

- Ceramic coating on metal parts
